

MAYUR BADGUJAR

Portfolio | Speaking | mayurbadgujar873@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full-Stack Developer with production SaaS experience and microservices expertise. Delivered B2B2C booking platform serving 50+ daily customers, increasing client revenue from 15K to 20K per 5 days. Architected scalable e-commerce system mimicking Amazon/Flipkart infrastructure capable of handling 100,000+ concurrent users with zero downtime.

TECHNICAL SKILLS

Backend: Node.js, Express.js, REST APIs, WebSockets (Socket.IO)
Frontend: React, Tailwind CSS, JavaScript (ES6+), TypeScript
Databases: MongoDB, PostgreSQL, MySQL, Prisma, Mongoose, Redis
DevOps & Cloud: Docker, Kubernetes, Vercel, Render, Git/GitHub, Nginx, CI/CD
Tools & Testing: Postman, k6 Load Testing, Resend API

PROFESSIONAL EXPERIENCE

Freelance Full-Stack Engineer & Technical Consultant Jan 2025 – Present
SmashX – Premium Sports Facility Booking Platform | [Demo](#) Remote

- Deployed production SaaS platform serving 50+ daily customers, increasing client revenue from 15,000 to 20,000 per 5 days (33% growth) by automating manual WhatsApp bookings and eliminating 80% operational overhead.
- Engineered O2O growth loop capturing walk-in customer emails via Guest Checkout, converting physical foot traffic into returning online users and boosting retention by 35% through automated digital receipts (Resend API).
- Resolved critical iOS/Safari authentication bug caused by Apple WebKit ITP blocking third-party cookies by unifying infrastructure under custom domain, ensuring secure first-party cookie transmission across all browsers.
- Designed high-performance MongoDB schema with dynamic slot evaluation, eliminating expensive database operations and implementing payment-gateway-grade security without third-party integration costs.

TECHNICAL PROJECTS

E-Commerce Microservices (Amazon/Flipkart-Scale) | *Node.js, Kubernetes, Redis, k6* | [Code](#) | [Demo](#) 2024

- Architected distributed system capable of handling 100,000+ concurrent users with zero downtime, migrating from monolith to Kubernetes-orchestrated microservices (Auth, Order, Stock) achieving horizontal auto-scaling.
- Engineered database-level optimistic locking and Redis atomic operations guaranteeing zero inventory overselling during flash sales, successfully mitigating 1,439% CPU spikes by auto-scaling pods 1→5 instantly.

AI Financial Analytics (Hackathon Build) | *Next.js, Supabase, PostgreSQL, Groq/Llama 3* 2024

- Built during hackathon: integrated local MCP server for voice-based expense logging, learned LLM integration with custom API wrappers featuring timeout handling and retry logic, patched OWASP A01 vulnerability via server-side validation.

SyncStream – Real-Time Watch Party | *Node.js, Socket.IO, Redis, MongoDB* | [Code](#) 2024

- Built for student use case with zero server costs: implemented Loom's 80/20 architecture routing 80% ephemeral state to Redis and 20% persistent data to MongoDB, achieving millisecond-latency synchronization across distributed clients, YouTube videos with synchronized controls and real-time canvas drawing for annotations.

MaxTeam – Hackathon Task Manager | *Node.js, Express, MongoDB, JWT* | [Code](#) 2024

- Developed minimal RBAC-focused management system for hackathon task delegation, implementing fine-grained permission boundaries (Admin, Project Admin, Member) and secure stateless session management with HTTPOnly cookies and refresh token rotation.

ACHIEVEMENTS & LEADERSHIP

- Campus Ambassador, ChaiCode** – Organized college's largest tech event with 600+ participants (2025)
- Top 10, Healthcare Ideathon** – Competed against IIT teams at KJ Somaiya College, Mumbai (2025)
- Top 10, Jana Kalyan Hackathon** – Cyber Security + ML project, IEEE Bombay Section (Feb 2024)
- Public Speaker** – Delivered sessions at AWS, Microsoft, ChaiCode, and VS Code Dev Days (2024-2025)
- First Prize, Avishkar Competition** – Won in first year competing against 4th-year students (Jul 2023)

CERTIFICATIONS

- Postman API Fundamentals Student Expert** – Postman (Oct 2023)

EDUCATION

SVKM's Institute of Technology, Dhule
Bachelor of Technology in Computer Engineering | CGPA: 8.5/10

Dhule, Maharashtra
Jul 2023 – Jul 2027
